Taking Care of Team Members: DoD Professional Response Resources for Sexual Assault

Everyone has a different reaction when they experience sexual assault. The effects can be psychological, emotional, and/or physical, and they may be brief or last a long time. No matter the effects you may be experiencing, we are here to help. Your health matters. You are always part of our team.

Reporting Options that are Sensitive and Responsive to Your Needs

**Unrestricted Report**
Allows you to receive medical treatment, advocacy services, and legal support. With this option, DoD law enforcement initiates an investigation and your chain-of-command is notified. You have the right to be reasonably protected and may also be eligible for other protections including Military Protective Order and expedited transfer.

**Restricted Report**
Allows you to receive legal advice, medical care, and advocacy services, but does not trigger an investigation. Please go to Sexual Assault Response Coordinators (SARCs) and SAPR Victim Advocates (VAS) to learn more about Restricted Reports. You do not have to tell law enforcement or your commander about your sexual assault to receive care and other assistance.

**Victim Reporting Preference Statement**
SARCs and SAPR VAs assist victims of sexual assault to complete a Victim Reporting Preference Statement (DD Form 2910) so they may elect a reporting option and understand the rights and resources available. This form may be used in other matters before other agencies (e.g., the Department of Veterans Affairs) or for other lawful purposes.

If you have experienced a sexual assault, you can talk to someone anonymously by calling 877-995-5247 or visiting www.SafeHelpline.org. A trained professional is always there to provide immediate assistance and can connect you with local response resources.

Important Reminders and Department of Veterans Affairs Resources

The Department of Veterans’ Affairs (VA) offers help to Service members who have experienced sexual assault. The VA uses the term “military sexual trauma” (MST) to refer to sexual assault or sexual harassment experienced during Military Service. The following summarizes the assistance available to Service members:

- **MST Counseling at Vet Centers.** This may include a variety of services, information, and referrals to help you deal with the emotions of MST and regain confidence in your everyday life. Any veteran, or Service member including members of the National Guard and Reserve Component, is eligible to receive counseling regardless of gender or era of Service. Assessment and referral for MST-related counseling is available at all Vet Centers. This counseling may be accessed by Service members confidentially. On-site counseling is available at select Vet Centers across the country. Find your closest Vet Center here: https://www.va.gov/find-locations.

- **MST Coordinators.** Every VA healthcare facility has a Veterans Health Administration (VHA) MST coordinator who can assist in accessing MST-related medical and mental healthcare. Information is available at https://www.mentalhealth.va.gov/msthome/vha-mst-coordinators.asp.

- **MST Disability Claims.** For help with disability claims related to MST, contact the Veterans Benefits Administration (VBA) MST Outreach Coordinator at your local VBA regional office. Information is available at https://www.benefits.va.gov/benefits/mstcoordinators.asp.

Notes about assistance from the VA:

- When Service members seek care at a VA medical center, information regarding treatment will be included in VA medical records and protected from unauthorized disclosure. VA medical records may be accessed by DoD personnel under certain circumstances on a need-to-know basis. However, MST counseling received at a Vet Center is confidential and such records are not accessible to the DoD.

- Service members on flying status, in the Personnel Reliability Program (PRP), or in the Presidential Support Program (PSP) are reminded to follow DoD and Service policy requiring them to inform the flight surgeon or Competent Medical Authority anytime they receive medical and mental healthcare, especially when that care is from a non-DoD or non-TriCare source. Failure to so may jeopardize your ability to continue in the PRP, PSP, or on flight status, and could possibly have other career implications.
