DEFENSE SEXUAL ASSAULT INCIDENT DATABASE
Case Management | Business Management | Reporting

WHAT IS DSAID?

The Defense Sexual Assault Incident Database (DSAID) is the authoritative, centralized database used to collect and maintain information about sexual assault cases involving members of the U.S. Armed Forces.¹ DSAID gives Sexual Assault Response Coordinators (SARCs) the enhanced ability to provide comprehensive and standardized victim case management.

DSAID is funded and operated by the Department of Defense Sexual Assault Prevention and Response Office (DoD SAPRO). Service SAPR Programs use DSAID to meet Congressional reporting requirements and ensure transparency of sexual assault-related data. DSAID standardizes data across all Services and also standardizes reporting to Congress, and DoD and Service leadership. DoD SAPRO works collaboratively with the Army, Navy, Marine Corps, Air Force, National Guard Bureau, and Coast Guard to implement DSAID.

How Does DSAID Benefit Victims?

DSAID benefits victims by equipping SARCs with improved tools like enhanced case management meeting features and referral services tracking. DSAID also promotes accurate and timely reporting of sexual assaults. Additionally, DSAID houses DD Form 2910, the Victim Reporting Preference Statement, which victims can use if they transfer to a new installation or if they separate from the military and want to receive services at Veterans Affairs.

What Does DSAID Do and Who Has Access?

CAPABILITY »	Case Management	Business Management	Ad-Hoc Query & Reporting
USE »	<ul style="list-style-type: none"> » Input and maintain data pertaining to a sexual assault case and, when applicable, related retaliation actions » Track support to victims throughout the lifecycle of a DSAID case » Track cases for review » Secure 2910 Retention 	<ul style="list-style-type: none"> » Document case management review to facilitate SARC and Service SAPR program manager administration and management » Capture meeting minutes and create meeting agendas 	<ul style="list-style-type: none"> » Develop congressionally-mandated reports electronically » Include Case Synopsis » Produce ad-hoc queries » Facilitate trend analysis » Support program planning analysis and management
USERS/ACCESS »	Service SARCs ²	Service SARCs	SAPRO Analyst
	Service SAPR PMs	Service SAPR PMs	Service SAPR PMs
	<ul style="list-style-type: none"> » All SARCs must meet certification requirements » All users must meet background check and Privacy Act/PII training requirements 		Service HQ Legal Officers

Note: By Sept 2019, case management in DSAID will include tracking of sexual assault-related retaliation cases

¹ DSAID does not include sexual assault data on intimate partners or children. This information is under the purview of the Family Advocacy Program.

² "Service SARCs" includes SARCs and Service-designated SAPR VAs.
