

CATCH A Serial Offender Program Sample Form

Background: Congress has directed that the Department of Defense (DoD) set up a database where adult sexual assault victims can provide information anonymously to enable DoD to identify serial sexual offenders.

Purpose: Provide adult sexual assault victims, who file a Restricted Report, an eligible Unrestricted Report, or no report, with a mechanism to provide information to the CATCH program in order to identify individuals who are suspected of perpetrating multiple sexual assaults.

Note: This is a sample form to be provided to the victim to allow them to become familiarized with the suspect and incident details collected by the CATCH program. Only one field is needed to submit an entry, however the more information that is provided the more likely the CATCH program will be able to match the suspect to other potential entries or investigations. The most useful information is suspect name, rank and military affiliation; suspect phone number or social media profile; and date and location of the assault.
